

Asset	Properties	Source	Legal issues	Use
B&W pic of DH	JPG file 658px by 1000px 72ppi 98KB file size	<a href="#">File:33. Tagung 1983 Chemiker Dorothy Hodgkin - W134Nr.120813b - Willy Pragher.jpg - Wikimedia Commons</a>	Copyright Commons image. Free to use but requires attribution, so on a final, commercial version I would need to include text somewhere saying where the image came from	On page 1 of IDMP as a way of representing DH. Image will be a link to page 3 In video about DH as a way of showing what she looked like and referencing back to the homepage. This will be the first image shown so it will already be familiar  Image cropped to focus on face Image resized to be 500px by 760 px
Headshot of DH	JPG file 232px by 325px 72ppi 11KB file size	<a href="https://www.nobelprize.org/prizes/chemistry/1964/hodgkin/biographical/">https://www.nobelprize.org/prizes/chemistry/1964/hodgkin/biographical/</a>	Copyright image. I would need to get permission to use this before I was able to use it in a commercial product. Or I could replace it with a copyright free image	On page 2 as an intro to who DH was  Image used at full size. No crop required
<a href="#">Home page</a> button	4.4cm by 1.55cm Orange fill, green accent 6 outline at 4.5pt Text green accent 6, Calibri bold, size 28pt	Made it myself using PowerPoint shapes and text	None	On pages 2, 6, and 9 of my IDMP
Photo of John Peel centre	JPG file 2896px by 1944px 300ppi 1.4MB file size	Took it myself	None	On page 6 Resized to 640px by 430px Converted to 72ppi to reduce file size and make products quicker to load
Text for DH pages		I wrote this myself based on the Wikipedia page for DH	None – Wikipedia text is open source and I plan on changing this anyway	Pages 2, 3 and 4. The text will be written as short paragraphs and be easy to understand so that a range of audiences will be able to find out about DH
Video of John Peel centre	1920px by 1080px 11 second video MOV file 21.3MB file size	Took it myself	None	On page 7 as part of video introducing John Peel Video converted to MP4 format, reducing file size to 8.4MB. Trimmed to 6 seconds in length

Include buttons, text etc...

Find out asset size and, for images, ppi. Include file size where possible

The actual web address of the image or asset

**IMPORTANT!**

Include what **you** did to edit – this is **preparation**
