

Space Explorer 2050 is a video game which is in production. Players will take the role of the captain of a space ship exploring uncharted space. They will meet other explorers and alien races.

The opening scene of the video game will show the space ship approaching a planet.

A script will be produced for a voice over that sets the scene for the game..

(a) Identify **two** items that would be on the script of the voice over.

[2 marks]

Any two from: dialogue/word to be spoken [1], characters [1], stage directions [1], music directions [1], sound effect directions [1], slug line [1], timings [1] etc...

DO NOT accept camera shots etc... - this is for a voice over

(b) Identify **two** possible audiences for the script of the voice over.

[2 marks]

Any two from: actor/voice over artist, director, production crew, sound engineer, the client, game producer/animator etc...

(c) Explain why the shot types would **not** be included on the voice over script.

[2 marks]

Because this is a voice over [1] so there is no visual aspect to consider [1]

(d) Identify **two** pieces of hardware that could be used to help produce the voice over script.

[2 marks]

Any from: mouse, keyboard, touchscreen, monitor etc... Do not allow computer – too vague. Do allow printer – reasonable to print and edit

Total marks: 8
