

IMMP skills - animations

Use animations carefully and with skill to add style to your IMMP. Don't just use them randomly

Use **Animations** (at the top) and **Add Animation** to add an animation...

Click to open the **Animation Pane** on the right

Click the **drop down arrow** at the end to open options and style your animations

The **Timing** options are particularly useful

- Hide Advanced Timeline
- Remove

IMMP skills - transitions

Using clever and stylish transitions **between** slides can help add class to your IMMP. But use them with style and class.

Click **Transitions** to add transitions

More options here...

Effect Options will let you style your transitions

Apply to All to use the same transition on each slide (much classier)
