

Bubble sort method

Step 1: shuffle the cards and place them to one side, face up with the top card visible

1

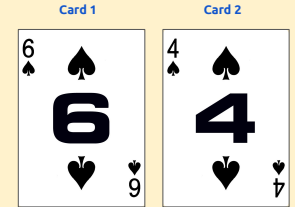

Bubble sort method

Step 2: take the top card and move it to the left – you should be able to see two cards

2

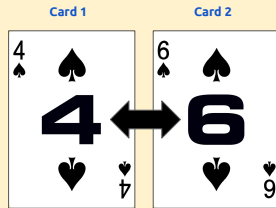

Bubble sort method

Step 3: compare the two cards. If card 1 is greater than card 2, swap the cards over

3

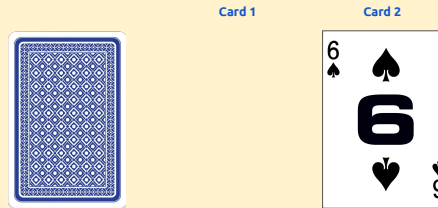

Bubble sort method

Step 3: compare the two cards. If card 1 is greater than card 2, swap the cards over

4

Bubble sort method

Step 4: take card 1 and place it **face down** to the left

5

Bubble sort method

Step 5: move card 2 to the left to become card 1 and repeat the process

6

Bubble sort method

Step 5: repeat until you have no cards left

7

Bubble sort method

When you have no cards left, check to see if the cards are in order

Repeat the sort again if needed
