

# Bitmap and Vector Graphics

**Bitmap** images are used for most of the images we make - e.g. photographs. They use **pixels**

# Bitmap and Vector Graphics

**Vector** images are made up of shapes and lines defined by coordinates and formulae

# Bitmap and Vector Graphics

VECTOR	BITMAP
Made up of shapes and lines	Made up of pixels
<b>Scalable</b>	Lose quality when scaled
Can be converted to bitmap	Can't be converted to vector
SVG	JPG, PNG, GIF
