

Remove backgrounds

1. **IMPORTANT: Double click** the lock on the layer stack > click **OK**

2. Find the **Object Selection Tool** - click and hold to pick up the **Quick Selection Tool**

3. Use this to select the background
4. Use the - **(minus) brush** to tidy any selection up
5. Press **delete** - the background should go (if it doesn't, you didn't unlock the background in step 1)
