

Name: .....

## Hardware and Software

1. Name **four** pieces of **hardware** that you might use with the computer in front of you

1. ....

2. ....

3. ....

4. ....

2. What other **hardware** might you use when you use your phone?

.....

.....

.....

3. Name **three** different pieces of **software**. Don't just name three bits of the same type of software!

1. ....

2. ....

3. ....

4. What can you do with hardware that you **can't** do with software?

.....

.....

5. What hardware do you think is **inside** the computer in front of you?

.....

.....

# Computers Odd One Out

---

Which word is the odd one out in each set of three?

## Task 1:

Circle the one that you think is the Odd One Out.

Underneath explain why you think it's the Odd One Out.

**Set A:** DVD Player - Bedside lamp - Microwave

**Set B:** Microwave - Washing machine - Record player

**Set C:** Shower - Hairdryer - Toothbrush

**Set D:** Alarm clock - Thermometer - Fridge

**Set E:** Laptop - Mobile Phone - X-Box

**Task 2:** Now that you have started to see a pattern, add an extra word to each group, but keep the same Odd One Out.

**Task 3:** Now try and put together your own group of words with an Odd One Out. There must be a good and obvious reason why it's the Odd One Out!
