

# Programming micro:bits

Check you're logged in  
to OneDrive

- Coding challenges

## Do now:

1. Open your PowerPoint document
2. In Python, what does a line what starts with # do?
3. Why do we use lines that start with #?
4. What is the technical name for these lines of code?
5. Find you code from last less (using buttons). Add writing to your slides to explain what the code does
