# **Animation Challenge**

Make a 5-10 second animation featuring the skater
It should:

- be 5-10 seconds long
- use the skater figure
- use a background
- the skater should move across the screen
- another character should appear
- something funny should happen

Stop frame animation

We'll make a short, simple stop frame animation using Adobe Animate

Stop frame animation

We'll use **12 frames per second**

Stop frame animation

Each frame you move the character a **short distance**
